

Package ‘sanapiwrapper’

May 12, 2020

Version 0.1

Date 2020-05-12

Title Josef Ansinger

Description wrapper for Santiment GraphQL API

Author Josef Ansinger <josef.ansinger@gmx.de>

Maintainer Josef Ansinger <josef.ansinger@gmx.de>

RoxygenNote 7.1.0

R topics documented:

setSantimentVariables 1

Index 2

setSantimentVariables *Set API key and API URL for Santiment GraphQL queries.*

Description

Note that setting API key and API URL is optional. Without them queries will default to a free Santiment account.

Usage

```
setSantimentVariables(key, url = "https://api.santiment.net/graphql")
```

Arguments

key	API key
url	GraphQL server URL

Examples

```
setSantimentVariables("y4i3n5xk6p")
```

Index

setSentimentVariables, [1](#)
